Media Release

January 11, 2008

FULL WINTER CLOSURE OF THE GROUSE GRIND TRAIL REMAINS IN EFFECT

Due to significant avalanche activity over the last 24 hours on all North Shore mountains, Metro Vancouver would like to remind the public that the Grouse Grind trail remains closed until spring. Recent heavy snowfalls and the subsequent heavy rainfall make current conditions extremely dangerous.

The Canadian Avalanche Centre is advising that avalanche conditions in the south coast mountains are serious. www.avalanche.ca/cac
